Fleet Biodiesel, Inc dba Fleet Fuel Testing
Material Safety Data Sheet

Acid Number Field Test FT-0120 and FT-0121

Revision date: January 1, 2014

1. CHEMICAL PRODUCT and COMPANY IDENTIFICATION

COMPANY
Fleet Biodiesel, Inc.

ADDRESS
4809 Clairemont Dr
Ste 432
San Diego, CA 92117
Tel +1.858.752.1156
Fax +1.866.519.5291

EMERGENCY PHONE #
1.858.752.1156

TRADE NAME
Acid Number Field Test (FT-0120 and FT-0121)

GENERIC NAME
Acid Number Field Test

TSCA
TSCA 8(b) inventory: Potassium Hydroxide, Phenolphthalein, powder; Water; Isopropyl alcohol

2. HAZARDS IDENTIFICATION

ACUTE HEALTH EFFECTS
Hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion, . Slightly hazardous in case of skin contact (corrosive), of eye contact (corrosive), of inhalation (lung sensitizer), of ingestion. Non-corrosive for lungs. Liquid or spray mist may produce tissue damage particularly on mucous membranes of eyes, mouth and respiratory tract. Inhalation of the spray mist may produce irritation of respiratory tract.

CHRONIC HEALTH EFFECTS
CARCINOGENIC EFFECTS: Classified A4 (Not classifiable for human or animal.) by ACGIH, 3 (Not classifiable for human,) by IARC [Isopropyl alcohol]. Classified 1 (Clear evidence,) by NTP [Phenolphthalein, powder]. Classified 2B (Possible for human,) by IARC [Phenolphthalein, powder].
MUTAGENIC EFFECTS: Mutagenic for mammalian somatic cells. [Phenolphthalein, powder]. Mutagenic for mammalian somatic cells. [Potassium hydroxide].
DEVELOPMENTAL TOXICITY: Classified Reproductive system/toxin/female, Development toxin [POSSIBLE] [Isopropyl alcohol].
The substance may be toxic to kidneys, the reproductive system, the upper respiratory tract, the skin, the eyes.
Repeated or prolonged exposure to the substance can produce target organs damage.

3. COMPOSITION and INGREDIENTS

**FIRE AND EXPLOSION HAZARDS**
Do not throw into any fire; potentially combustible ingredients may ignite, causing fire to spread, increasing risk of burns/injuries.
SPECIAL FIREFIGHTING PROCEDURES
Flammable liquid, soluble or dispersed in water.
SMALL FIRE: Use DRY chemical powder.
LARGE FIRE: Use alcohol foam, water spray or fog.

FIRE HAZARDS IN PRESENCE OF VARIOUS SUBSTANCES
Flammable in presence of open flames and sparks, of heat.
Flammable in presence of oxidizing materials.
Non-flammable in presence of shocks.

7. HEALTH HAZARDS

ROUTES OF EXPOSURE
Absorbed through skin. Eye contact. Inhalation. Ingestion.

INHALATION
May cause irritation of the respiratory tract and mucous membranes. Breathing large amounts may affect the brain, respiration (difficulty breathing), behavior (Central nervous system depression - headache, somnolence, irritability, dizziness, drowsiness, stupor, incoordination, unconsciousness, coma and possible death), peripheral nerve and sensation (peripheral nervous system), blood, urinary system, cardiovascular system, gastrointestinal system, and liver.

EYE CONTACT
May cause eye irritation with mild burns, tearing, redness, and swelling.

SKIN
May cause skin irritation with possible mild burns. Prolonged or repeated skin contact may cause dermatitis.

INGESTION
Swallowing large amounts may be harmful. Swallowing large amounts may cause gastrointestinal tract irritation with nausea, vomiting and diarrhea, abdominal pain and possible mild burns of the mouth, throat and stomach. It also may affect the urinary system, cardiovascular system, sense organs, behavior or central nervous system depression (somnolence, irritability, headache, dizziness, drowsiness, stupor, incoordination, unconsciousness, coma, narcosis), peripheral nervous system, liver, blood, metabolism, and respiratory system (breathing difficulty).

8. PROTECTIVE EQUIPMENT / CONTROL MEASURES

RESPIRATORY PROTECTION
No special respiratory protection equipment is recommended under anticipated conditions of normal use with adequate ventilation. Do not breathe gas/fumes/vapor/spray. In case of insufficient ventilation, wear suitable respiratory equipment. If you feel unwell, seek medical attention.

EYE PROTECTION
Avoid contact with skin and eyes. Eye protection such as chemical splash goggles and/or face shield must be worn when possibility exists for eye contact due to splashing or spraying liquid, airborne particles, or vapor.
SKIN PROTECTION
Depending on the conditions of use, protective gloves, apron, boots, head and face protection should be worn. This equipment should be cleaned thoroughly after each use.

ENGINEERING CONTROLS
No special ventilation is recommended under anticipated conditions of normal use beyond that needed for normal comfort control. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

EXPOSURE LIMITS
Potassium hydroxide
CEIL: 2 from ACGIH (TLV) [United States] [1999]
Consult local authorities for acceptable exposure limits.

OTHER WORK PRACTICES
No special work practices are needed beyond the above recommendations under anticipated conditions of normal use.

9. EMERGENCY AND FIRST AID

INHALATION
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

EYE CONTACT
Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention immediately.

SKIN CONTACT
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

INGESTION
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband.

EMERGENCY MEDICAL TREATMENT PROCEDURES
Treat symptomatically.

10. SPILL AND DISPOSAL

PRECAUTIONS IF MATERIAL IS SPILLED OR RELEASED
Small Spill:
Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal container. If necessary: Neutralize the residue with a dilute solution of acetic acid.

Large Spill:
Corrosive liquid.
Stop leak if without risk. Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Do not touch spilled material. Use water spray curtain to divert vapor drift. Prevent entry into sewers, basements or confined areas; dike if needed. Call for assistance on disposal. Neutralize the residue with a dilute solution of acetic acid. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MSDS and with local authorities.

WASTE DISPOSAL METHODS
It is the responsibility of the generator to determine at the time of disposal whether the product meets the criteria of a hazardous waste. Waste must be disposed of in accordance with federal, state and local environmental control regulations. Comply with all applicable federal, state and local regulations. Use registered transporters.

11. ADDITIONAL PRECAUTIONS

HANDLING AND STORAGE PROCEDURES
Keep out of reach of children. Keep tube tightly closed when not in use. Protect against exposure to high temperatures. Prevent contact with strong oxidizing agents. Reacts violently with acids, halogens, halogenated hydrocarbons, maleic anhydride, organic anhydrides, isocyanates, alkylene oxides, epichlorhydrin, aldehydes, alcohols, glycals, phenols, cresols, caprolactum solution. Also incompatible with nitro compounds (nitrobenzene, nitromethane, nitrogen trichloride), organic materials, acid anhydrides, acid chlorides, magnesium, peroxidized tetrahydrofuran, chlorine dioxide, maleic dicarbide, sugars.

12. SUPPLEMENT

HMIS RATING
Health 2
Flammability 3
Reactivity 1
Personal protection h

REGULATORY INFORMATION
TSCA status: All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

California Proposition 65 Information:
This product contains the following substance known to the state of California to cause cancer: phenolphthalein

Federal and State Regulations:
New York release reporting list: Potassium hydroxide
Pennsylvania RTK: Potassium hydroxide
Florida: Potassium hydroxide
Minnesota: Potassium hydroxide
Massachusetts RTK: Potassium hydroxide
New Jersey: Potassium hydroxide
TSCA 8(b) inventory: Potassium hydroxide; Water
CERCLA: Hazardous substances.: Potassium Hydroxide, 0.1N
Rhode Island RTK hazardous substances: Isopropyl alcohol
Pennsylvania RTK: Isopropyl alcohol
Florida: Isopropyl alcohol
Minnesota: Isopropyl alcohol
Massachusetts RTK: Isopropyl alcohol
New Jersey: Isopropyl alcohol
TSCA 8(b) inventory: Water; Isopropyl alcohol; Potassium Hydroxide; Phenolphthalein, powder
TSCA 4(a) final testing order: Isopropyl alcohol
TSCA 8(d) H and S data reporting: Isopropyl alcohol: Effective date: 12/15/86 Sunset Date: 12/15/96

Other Classifications:
WHMIS (Canada): CLASS B-2: Flammable liquid with a flash point lower than 37.8°C (100°F).
DSCL (EEC):
R11- Highly flammable.
R45- May cause cancer.
S7- Keep container tightly closed.
S16- Keep away from sources of ignition – No smoking.
S36/37/39- Wear suitable protective clothing, gloves and eye/face protection.
S45- In case of accident or if you feel unwell,

Other Classifications:
WHMIS (Canada): CLASS E: Corrosive liquid.
DSCL (EEC):
R36/37/38- Irritating to eyes, respiratory system and skin.
S24/25- Avoid contact with skin and eyes.
S36/37/39- Wear suitable protective clothing, gloves and eye/face protection.

HMIS (U.S.A.):
Health Hazard: 2
Fire Hazard: 3
Reactivity: 0

Personal Protection: h

National Fire Protection Association (U.S.A.):
Health: 2
Flammability: 3
Reactivity: 0

Specific hazard:
Protective Equipment:
Gloves.
Lab coat.
Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
Splash goggles.

INTERNATIONAL STATUS
Australia (AICS): included on inventory
Canada (DSL): included on inventory
China (CECS): included on inventory
Europe (EINECS): not included on inventory
Japan (ENCS): included on inventory
Korea (ECL): included on inventory
Philippines (PICCS): included on inventory
